Klubb aerial platform manufacturer sets up in India with the support of a local distributor, Gemini Power Hydraulics. He will be responsible for the development of sales and after-sales service in the country. An agreement has just been signed to this effect between the two companies.

Gemini presented the first nacelle vans to be marketed in the Indian market at a professional event (AWP Junction) held in Mumbai. *"The whole team is excited about this new partnership. The idea being to bring new high-performance products to the Indian market, always more efficient for our customers and able to save time,"* said Rajiv Sethi, CEO of the company. It will build and distribute these bucket vans from its facilities in India. Gemini will also provide repair and maintenance for these models.

"It is a great pleasure to welcome Gemini into our network of distributors, which is in full development. India is experiencing strong economic growth and there is a significant increase in the number of companies that want innovative, high-quality machines to increase their efficiency," commented Julien Bourrellis, Klubb's President.
