

# Klubb and Gemini partner in India

By Euan Youdale 19 March 2018

France-based Klubb has appointed Gemini as its dealer in India.

In partnership with Klubb, Gemini introduced the first van mounted platforms to be produced for India at its AWP Junction conference and open day in Mumbai this month.

“All the team is very excited about this appointment. The idea behind this is to bring brand new products to the Indian market, able to reduce time and increase efficiency for our customers,” said Rajiv Sethi, managing director of Gemini.

Gemini, distributor for a range of lift manufacturers, will mount and distribute the Klubb van mounts from its facilities in India. The products, developed specifically for the Indian market, comply with European safety standards, said the company, and adhere to Indian and European manufacturing norms.

Gemini will also provide maintenance in the territory for these models.

“It’s a great pleasure to welcome Gemini to our growing network of professional dealers. India is experiencing strong economic growth and there is a large increase in the number of firms who want innovative and top quality machines in order to increase efficiency,” added Julien Bourrellis, president of Klubb.
