M/s Gemini Hydraulic Service Engineer team & R.B Associates representative visited our site on 16.11.2009 at 19.00 hrs and completed the lifting & lowering job of 16 MB 430 V Man B&W Engine (DG-3) on 17.11.2009. The lifting & lowering was carried out successfully as per our instructions by using four No 200 MT Hydraulic Jacks with motorized controlled intensifier. The Job was critical as Engine was to be lowered on concrete base with Foundation Bolts in position & without damaging the thread of bolts.

Thanking You,
